In a recent issue of the New York American that paper published a photograph of the Wichita fair grounds race track, taken as Cresceus, the world's trotting stallion, paced by Mike, the Tram, a running horse, as the animals were nearing the wire. A copy of the picture is to be seen in a window of the Engle office.

The picture was taken on the day when Cresceus went a mile in 1:59%. The photograph published in the American is true to the original. One can almost imagine that friends and acquaintances can be recognized in the picture
